Vidhyashram International School

Welcome to the new Academic Session 2019-20!

It is a proud moment for all of us as our students have given us a reason to hold our heads high by attaining 100% Board results in classes X & XII. I congratulate students, parents and teachers for the remarkable performance.

We also received International School Award (2019-22) by British Council for imbuing internationalism in our curriculum. Year-long activities instilled in our students the 21st century core skills.

The school app has been in place for one year now and is being effectively used by parents and teachers. We, however expect to increase its usage manifold.

Also, from current academic session, the school is likely to add cricket balling machine which will further hone the skills of students. Similarly, in academics, slow learners are being identified and plans are in place for providing them with necessary push in the form of extra classes.

Looking forward to your valuable suggestions and continued support.

## "MY ALMA MATER"

### (AYUSHI GUPTA)

The month before I joined Vidhyashram was all pandemonium. Now, looking back, it seems everything was as it should have been, looks like all the mental gymnastics was worth it. I joined the school in 9th standard, and since then it has become a second home. I made some great friends, and have learned from the best teachers the city has to offer.

The constant personal attention and the motivation that faculty has provided is no doubt the reason for this fruitful result. I was given ample opportunities for not only inter-school interactions and debates, but also, intra-school competitions that cheer us up from time to time and help build a healthy environment.

There is and always will be a constant fear of the BOARD EXAMINATION in background perpetuated by relatives, family and society in general. What our school does best is to curb that fear from getting

to our hearts and minds. The teachers focus on understanding and learning the concepts of the subject, as well as , discussing on the sideline how to write answers. The smart board teaching makes the subjects interesting and the visual data helps us remember important points. The games periods provide us space to organise our thoughts while playing and exerting ourselves, so that the body stays healthy.

Now comes the final months of the examination.... all hell breaks lose as all expect one to study all the time( which is not possible). The class meeting our Principal Ma'am took 2 months before the examination served as an eye opener. She gave the sanest advice which most of the students already knew but hardly got the time to implement. Most of the students join coaching classes and ignore physical and mental fitness. I took Principal Ma'am's advice seriously and exercised daily. I also listened to music while exercising and ate a lot of chocolates to keep up my spirit. I tried meditating which helped me a lot in improving my concentration.

Vidhyashram will always remain an inseparable part of my memories.

### **( VAIBHAV LOHIYA )**

School days are moments to be cherished for lifetime. Memories of school are hard to describe, because the school has given me a lot. I started my journey at Vidhyashram in class 4th. I have been blessed and enriched by experiences that have shaped me as a student and as a person. This institute provides ample opportunities to its students to achieve their fell potential academically and through wide range of artistic and sports activities. From the bottom of my heart, I thank all my wonderful teachers who have installed in me the skill to sustain in this competitive world. I will carry what they taught in my mind and also my heart for the rest of my life. Also, I am glad to have some very good friends I met in school. Lastly, I would like to congratulate the school for the accomplishments and would wish it to continue shaping children's future in the best way. May the school continue in the same spirit for years and years to come.

## ● RISHABH TATIA ●

It is a matter of great pride to become a brick of such a great school whose main aim is not only to educate the students but also to inculcate all noble virtues for being a good person. I got enrolled in the school for 1st standard. I was too young to understand the difficult things but I could perceive the love, affection and care showered on me by my teachers.

Our Principal Ma'am treats each and every student and teacher as a family member. All the fun activities, cultural programs, events, competitions are conducted to build-up charismatic personalities. All the teachers of this school are unique and adopt strategies to make classroom learning simple and interesting. 'Kitaabo', Annual Function, Sports Day etc are the events that unite us in different ways. I have some very fond memories of the school. This school is the best in all aspects. I love my school and I really miss it. Thank you

The festival of Rakhi, popularly known as Raksha Bandhan, is symbolic of the strong bond shared between brothers and sisters. This festival is celebrated in our country with a lot of vigour and vitality. VIS conducted a week long Rakhi Making Activity for the students of classes 3, 4 & 5 wherein they prepared Rakhis with the help of properties furnished to them. Classes 3 & 4 used wool to make Rakhi whereas class 5 used quilling strips to enliven their imagination in the form of rakhi. The students did the task impeccably, leaving no space for improvement. Witnessing their creations was a sheer treat to the eyes.
