Dear Readers,

It gives me immense pleasure to share with you the happenings in the school through Anubhuti. During this period, from April 17 to August 17 the Board results for X and XII were received and once again our students have performed exceedingly well.

It was proud privilege for the school to receive the World Education Award-2017 during 10th World Education Summit at New Delhi for use of ICT in School Management.

Keeping pace with the latest in the school education, VIS has given itself a task of being first Digital school of the city. The school has introduced Learning Management Solution 'Moodle' which provided options to the teachers to choose the best content available to provide quality education.

Six students of our school have received Bronze Level in IAYP programme under the aegis of Duke of Edinburgh.

Response to 'Flinnt App' has been tremendous; I thank you for the same.

I will request parents and guardians to apprise themselves on change in the Examination policy of students from class VI onwards. The revised policy requires sustained and serious involvement of your ward in Academics.

I feel overwhelmed for the kind of support, cooperation and partial constructive communication you all have shown towards the school and we look forward for your partial contribution in the growth of your ward and the school.
