## Innovations

- **MOODLE Learning Management Solution:** School has been using Moodle, a learning management system. Courses are created for all scholastic and co-scholastic subjects for all the classes on this platform and assignment and activities of teachers can be accessed by the students and other teachers in classrooms and at home.

- **Vidhyashram International School App Communication and Information Platform :** This App is used for keeping parents and students updated about home assignments, school circulars, subject work sheets etc.

- **IAYP:** IAYP (International Award for Young People) Vidhyashram International School has been nominated as a centre for IAYP in June 2016. IAYP is administered by 'The Award Programme Foundation'. It is a self development programme affiliated to the Duke of Edinburgh's International Award Association. The award programme consists of four mandatory sections-Service, Adventurous Journey, Skills and Physical Recreation. The programme aims at equipping the participants with life skills to make a difference to themselves, society and the world.

- **Interact Club:** Under Rotary Club of Jodhpur Padmini was installed at VIS where about 30 young students took part in the member oath taking ceremony. Interact is Rotary International's

service club for young people aged 12 to 18 to bring them together and develop leadership skills while discovering the power of Service Above Self.

■ **Aeromodelling and Robotics:** Vidhyashram International School has started Aeromodelling and Robotics as a subject for imparting skill development. All the students of classes VI to VIII have been opted for an Aeromodelling program and classes IX to X have been opted for Robotics program in which they will not only understand about the concept of Aerodynamics in flying and physics of Robotics but will also make models for each activity. In Aeromodelling they will make three different basic gliders like Chuck Glider and Catapult Glider and in Robotics they will create a wired remotely operated movable pick and place robot. In robotics, students will also learn about designing their own robots on 3D designing softwares. Few latest machines also will be demonstrated to students for increasing their knowledge and to get in touch with latest technology.

■ **SRJNA Lab:** The tinkering lab helps students to experiment, learn, develop and conceptualize different scientific ideas. Project-based learning actively engages the students thereby providing rich learning experiences. Regular workshops are also conducted for teachers for training of concepts, tools, activities and challenges of the tinkering lab.

#### ■ **Drama Classes:**

To hone the innate talent of young Indians, drama classes have been introduced from this session. The students are enjoying the classes and a significant improvement has been observed in their performance.

# Vidhyashram Public School Jaipur

**Mrs. Ritu Dak**  
**Director**

Children are naturally creative, incredibly intuitive and immensely curious. Preschool helps them to dig in the learning environment to satisfy their curiosity, provides opportunities for hands on activity to let the creativity grow and most important to feel the joy of being and learning in a safe, compassionate and stimulating environment.

## Director's Message

## Location and Infrastructure

Vidhyashram Public School, Jaipur is a safe, secure stimulating place with a sprawling open ground for children to run and feel the nature and feel free to explore. This is the place where the inquisitive minds are nurtured with compassion.

Safe and attractive outdoor equipments help children in their gross motor development. Well ventilated classrooms with comfortable furniture and stimulating interior help children to learn better. A cozy library filled with books building language imagination, curiosity, number skills and you have them all.

Children learn best with hands on experiences and for this the school provides an activity room where children experiment with the information acquired puzzles, flash cards, masks and other equipments for social development.

A 3000 sqft. hall for Skating, Dance, and Yoga. To prepare children for the technological advancement a computer lab has been set up where children familiarize and learn the basics.

## We believe

Children are incredibly intuitive naturally creative and deeply curious. They have unlimited powers of creativity. We believe a child has its own personality in the growth of which no institution should create hindrance. We value things important to the student.

Education and training are the keys to the future. A key can be turned in two directions – turn it one way and you lock resources away turn it the other way and you release resources.

## Aims that guide

We know and respect the children and their families as individuals celebrating the richness of diversity and identity.

We develop strong reciprocal and mutually trusting relationship between child, family, school and the community.

We know that each child is a unique individual. We provide an atmosphere to nurture the seeds of creativity, curiosity and talent.

We provide a well planned, aesthetic, motivating and versatile learning environment which supports children as active learners provoking their interest and inquiry and linking indoors with outdoors.

We offer children a wide range of learning experience so they have the opportunity to realize and expand their personal potential.

We support children in making the transition to the next phase and their education with enthusiasm and confidence following a happy and fulfilling experience.

The school supports inclusive education and takes care of each child's special needs.

## Education in Vidhyashram Public School

Education here develops the whole child and not just their academic abilities Vidhyashram Public School provides students with personalized, compassionate, and community oriented education.

The seven areas of learning and development in VPS are:

Three prime areas first

1. Communication and language
2. Physical development
3. Personal, social and emotional development

As children grow in prime areas, it helps them to develop skills in four specific areas . These are

4. Literacy

5. Mathematics
  6. Understanding the world
  7. Expressive arts
- They learn the best when they are involved and interested, secure and confident in themselves and their abilities.

VPS provides a stimulating, safe and happy environment. An environment where children learn through play to live and live to learn.

## Parents

Parents are regarded as children's first educators and therefore we see it as vital to work closely with parents particularly in these early days to get to know the child and family. Parents are members who have full participatory rights. These include the right to be valued and respected, consulted, involved and included at all levels

**Mr. & Mrs. Phophaliya**  
Parents of State Topper

We are very grateful for all the support Vidhyashram has given to our ward. The dedication shown by the faculty members of Vidhyashram is rare and appreciable. Their guidance has played a major role in making our daughter achieve her remarkable success. The discipline and work culture she learned at Vidhyashram are still serving her well. We feel proud on having chosen VIS for our daughter, which paved her way to a bright future.

**Dr Bhanu Prakash Chadha  
& Dr Shweta Kachhwaha**

Every parent wants to give the best education and environment to their children especially during the formative years. We, as parents of Uday Kumar Chadha, class IV, also wanted the same for him. He has special needs and these have to be fulfilled to bring him at par with others. The zeal with which our son has been helped and prodded to come and stand among the rest is really appreciable. All this was done in a very professional but a very kind manner reassuring us along the way that our child is in caring hands of people for whom making someone's life worthwhile is more important than to create an army of achievers. Please keep the good work going on for the many Udays out there who need your help too. God bless you.

**Mrs. Rekha and Mr. Mahavir  
Chandra Pandey Parents of  
Devansh Pandey class VII D**

Words from the bottom of my heart for a modern ashram – that is Vidhyashram which provides exceptional opportunities for the overall development of a child.

We are very happy as both our sons are studying in one of the best private schools in the western Rajasthan with an affordable fee. In very few years, the school has given excellent students who are studying in various fields in India and abroad. Both my sons are studying in such a loving institution where all round development takes place. The school has competent and versatile teachers who encourage students to reach their full potential. The name itself spells success. We value the involvement of the entire staff in the wholesome development of our child's learning. We express our heartfelt gratitude for all your efforts.

**Mr. Arvind Apoorva**  
F/o Lakshya Apoorva  
Class - VII

My association with VIS is quite old as my children have been a part of this school for past 15 years. So, I have been a witness to the tremendous efforts that the teachers put for the betterment of children in all aspects.

So far the journey has been very fruitful as the school has met all our expectations and I would like to thank the entire VIS family for shaping my children into responsible and well behaved children.

**Lt Col. S.K. Rana and  
Mrs. Navjyot Rana**  
Parents of Lavanya Rana  
Class VII F and  
Samar Veer Singh Rana  
UKG B

Education is not only meant for bookish knowledge but it is the manifestation of all the qualities, aspirations and moral values of the child. The impetus that both my children got in terms of both academics and co-curricular are commendable. I want to specially thank the faculty for being a guardian away from home. I am totally relieved and tension free while my children are in the school because I know that they are under the loving guidance and watchful eyes of the staff. Thanks a lot for taking care of my children.

**Major Ravinder Singh Shekhawat  
and Mrs. Charu Rathore,**  
Parents of Ranvijay Singh  
Class LKG-A

I would like to thank all the teachers of Vidhyashram Kidz Play School, for their untiring efforts because of which my child has shown great improvement in academics as well as co-curricular activities. The important thing is that they provided personal attention to every student. Timely conduction of PTM provides necessary platform to interact with teachers and know about my child's performance. Regular conduct of Practical activities, extra curricular activities such as painting, dancing etc keeps students motivated to go to school. Overall an outstanding school with excellence staff.
